NO FOREIGN DISSEM [REDACTED]

WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

### ARCH-ROOFED STORAGE BUILDINGS AT THE OSIPOVICH AMMUNITION DEPOT YASEN NORTHWEST OSIPOVICH, USSR

Four arch-roofed storage buildings similar to those observed in Cuba and at storage sites in the USSR, including those near Ulan-Ude and Arys, <sup>1/</sup> have been added to the Osipovichi Ammunition Depot Yasen Northwest, USSR, since [REDACTED]. The depot [REDACTED] is located at 53-19N 28-49E, 6 nautical miles east of Osipovichi, USSR (Figure 1).

#### GENERAL DESCRIPTION OF DEPOT

The ammunition depot consists of a doubly secured storage area, a singly secured storage area, and an administration and housing area (Figures 2 and 3). The depot and its facilities

were described in detail in a previous report. <sup>2/</sup>

The trapezoid-shaped doubly secured storage area measures approximately 3,700 by 1,930 feet and contains 11 large storage buildings measuring 170 by 50 feet and at least 4 smaller buildings. The buildings in this area are not revetted; however, blast protection is provided by heavy vegetation and separations of more than 500 feet between structures.

The irregular-shaped singly secured storage area measures approximately 3,200 by 2,600 feet and adjoins the northeast side of the doubly secured area. The singly secured area contains

the 4 arch-roofed buildings, 2 small possible buildings, 3 possible underground tanks, a bunker, and a possible overhead pipeline.

The administration and housing area is located northwest of the 2 secured storage areas and within the perimeter fence of the depot. Installations in the vicinity of the depot are listed in Table 1.

### DESCRIPTION OF ARCH-ROOFED STORAGE BUILDINGS

Of the 4 arch-roofed storage buildings, 3 are earth covered and measure 245 by 60 feet.

apart. The separations between the arch-roofed buildings vary, with the smallest measuring less than 100 feet; however, all 4 of these structures are more than 800 feet from the nearest other

building. A chronology of the construction of the arch-roofed buildings is presented in Table 2.

Table 2. Chronology of Construction of Arch-Roofed Buildings at Osipovich Ammunition Depot Yasen Northwest, USSR

Date	Construction Status
	Conventional ammunition storage area apparently complete; no roads or arch-roofed bldgs visible in adjacent area
	One arch-roofed bldg erected; area cleared for a second bldg
	No change discernible on poor-quality photography
	Second arch-roofed bldg apparently complete
	Area cleared for a third bldg; road system visible
	Quality of photography precludes determination of status of third arch-roofed bldg
	Third arch-roofed bldg erected but not earth covered
	Third bldg earth covered
	Fourth arch-roofed bldg under construction
	Fourth bldg apparently complete but not earth covered
